- Hex shaped head with slot for wrench or screwdriver installation.
- Lower cost option over brass or steel NPT plugs.
- Non-corrosive—resists salt water, weak acids, gasoline, alcohol, oil, grease and common solvents.
- NPT threaded plugs for hydraulic and pneumatic applications.
- Seals threaded openings and protects against contamination and moisture.
- Provides a liquid-tight seal up to 70 psi.
- Resists oil and heat up to 221°F (105°C).
- Electrically nonconductive nylon 6/6.
- IP 68 Rated.
