DFARS Certificate of Compliance

Defense Federal Acquisition Regulations Supplement (DFARS) is invoked for material supplied to the US Government or a contractor for the US Government whereby the product must be manufactured in the US or US ally, which includes raw material.

This document certifies that all components of HEYCO PRODUCTS CORP. are compliant with current US DoD, Defense Federal Acquisition Regulations. Since Heyco Products Corp. is a U.S. manufacturer, and all of our raw materials and packaging products used in our manufacturing processes and shipping activities are procured from stateside sources, all Heyco produced parts are 100% DFARS compliant.

Due to logistics and conditions required for control of raw material, foreign sources of raw material are not a consideration for Heyco Products Corp. Domestically procured raw material is the only raw material exclusively used by Heyco Products Corp. Raw material used in our manufacturing processes is primarily procured from the following sources:

- BASF Corporation, Wyandotte, MI,
- DSM Engineering Plastics, Inc., Evansville, IN,
- Federal Plastics Corp., Cranford, NJ,
- GE Plastics, various stateside locations,
- Huntsman Corporation, Salt Lake City, UT,
- NSO Resins, Inc., Greenwood, SC,
- Polymer Resources LTD., Farmington, CT, and
- Washington Penn Plastic Co., Inc., Washington, PA.

All other products not manufactured by Heyco Products Corp. are procured from countries listed in the current DFARS, subpart 225.8 maintained on the US Department of Defense website at:

http://www.acq.osd.mil/dpap/dars/dfars/html/current/225_8.htm#225.872

We anticipate this response satisfies your concerns regarding our products and requirements for DFARS compliance information, if not, please contact us and we will do our best to provide additional information.

Thank you,

Patrick Sardoni
Quality Manager
Heyco Products Corp.
