REACH Certificate of Compliance

Dear Valued Customer,

Heyco Products Corp., together with our material suppliers, actively evaluates our products for compliance with Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Under REACH, Heyco products are classified as **"articles."** An article is defined in REACH as *"an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition."*

Articles are generally exempt from registration requirements under REACH.

Exceptions to the Article Exemption

The two applicable exceptions are:

- Substances that are intentionally released from an article; and
- Substances listed on the Candidate List of Substances of Very High Concern (SVHC) present above 0.1% (weight by weight).

Heyco Products Corp. confirms that no substances are intentionally released from its products under normal or reasonably foreseeable conditions of use.

SVHC Candidate List Review

Based on supplier declarations and internal material composition data, Heyco Products Corp. has reviewed its products against:

- **Annex XVII (Restrictions)**
- **Annex XIV (Authorization)**
- **SVHC Candidate List through 04-February-2026**

Heyco products do not contain substances subject to authorization under Annex XIV and do not contain substances restricted under Annex XVII, including all applicable amendments through the above date.

Substances of Very High Concern (SVHC)

Candidate List through 04-February-2026

SVHC Present in Certain Heyco Products

Disclaimer: This information is believed to be accurate and refers to the laws, regulations, and products at the date of issue. However, Heyco Products Corp. makes no express or implied representations or warranties with respect to the information contained herein. It is the responsibility of our customers to determine that their use of Heyco Products Corp. products is safe, lawful, and technically suitable for their applications. Because of possible changes in laws and regulations, Heyco Products Corp. cannot guarantee that the status of its products will remain unchanged.

Substance Name	EC Number	CAS Number	Reason for Inclusion	Material / Application
1,1'-(ethane-1,2-diyl)bis[pentabromo benzene] (DBDPE)	284-366-9	84852-53-9	Very persistent and very bioaccumulative (vPvB) – Article 57(e)	Flame retardant in Santoprene®
Lead	231-100-4	7439-92-1	Toxic for reproduction (Article 57c)	Brass and steel components

¹ DBDPE is present above 0.1% (w/w) in Santoprene material used in certain Heyco products to meet flame-retardancy requirements. The substance is not intentionally released from the article.

² Lead may be present above 0.1% (w/w) in certain metallic components (e.g., brass or plated steel parts). The presence of Lead is material-function driven and not intentionally released.

Affected Parts – DBDPE (>0.1% w/w)

Material: Santoprene® TPE

SVHC: DBDPE (CAS No. 84852-53-9, EC No. 284-366-9)

¹ The above parts contain Santoprene® thermoplastic elastomer material formulated with DBDPE as a flame retardant. DBDPE is not intentionally released and is present solely to meet UL V0 flame-retardancy requirements.

REACH Article 33 Compliance

This statement fulfills Heyco Products Corp.'s communication obligations under **REACH Article 33** for products containing DBDPE and Lead above 0.1% (w/w). Safe-use information is available upon request.

Should you have any questions regarding REACH compliance or require additional information, please contact us.

Sincerely,

Richard Arellano

Quality Manager
